CAREER OBJECTIVE

To secure a challenging role in a leading global IT services and consulting firm, where I can apply my technical skills, contribute to innovative projects, and grow professionally while delivering value-driven solutions to clients worldwide.

PROJECTS

Personal Portfolio Website

Developed a responsive personal portfolio using HTML, CSS (or Tailwind/Bootstrap), and JavaScript to showcase projects and skills. Integrated interactive elements, optimized for performance, and ensured cross-browser compatibility.

Machine Learning Model for Predictive Analysis

Created a machine learning model using **Python** and libraries like scikit-learn to predict outcomes (e.g., stock prices, housing prices). Cleaned and visualized data, trained models, and optimized accuracy through hyperparameter tuning.
